

RADIUS II SHOCKMOUNT

TAKE YOUR RECORDING AND STREAMING TO THE NEXT LEVEL

Radius II is a vintage-style suspension mount that isolates Yeti and Yeti Pro USB microphones from noise, shock and ambient vibration. Radius II features a new and improved hinge design that locks in place for stable microphone positioning. Custom designed for the Yeti and Yeti Pro microphones, Radius II also works with virtually any microphone that has a standard thread mount, and is compatible with both US and Euro microphone stands. Take your recording and streaming productions to the next level with Radius II.
