

12 Meters Low-loss Antenna Extension Cable

TL-ANT24EC12N

⦿ Features:

- Easy and quick deployment into suitable WLAN environment
- 12 meters in length allows you to relocate your antenna to a optimal position to maximize the wireless performance
- Features higher performance low loss KMS-400 (LMR-400) cable with excellent flexibility
- Weather resistant design, applicable in most outdoor solutions
- N Male to Female connector, works with N type antenna

⦿ Description:

What happens when your wireless signal is too weak to connect to an access point in another building and you want to better position your wireless antenna in a higher or wider place to get a better signal? The antenna extension cable is the answer to your problems. There is no need to move your access point or wireless router, which may sometimes be immovable, from place to place. With the several kind of low-loss extension cable, you will have more flexibility to move your antenna in order to maximize your wireless performance.

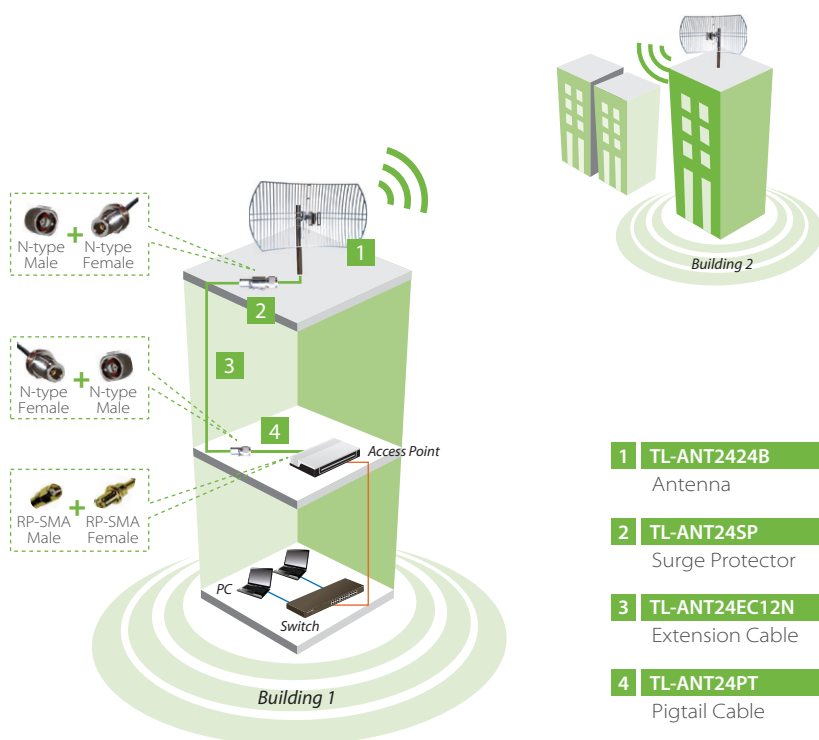

◎ Specifications:

Dimension	12 Meters
Frequency	DC ~ 3GHz
Impedance	50Ω Nominal
Insertion Loss	6.5 dB
Connector Type	N Male to Female
Operating Temp.	-10℃ ~+60℃
Storage Temp.	-40℃ ~+80℃
