

Trident Z RGB Series

Extreme Performance DDR4 Memory

Product Name	G.SKILL Trident Z RGB Series DDR4 3866MHz 32GB(16GBx2) Memory Kit
Model Number	F4-3866C18D-32GTZR
EAN Code	4719692015006
UPC Code	0848354025009
SKU Live Date	-

Overview

G.SKILL Trident Z RGB series is one of the world's most revolutionary RGB lighting DDR4 memory kit. Featuring a complete row of LEDs brilliantly displayed through an uncovered full-length light bar, Trident Z RGB series is capable of displaying a wide range of vivid colors. Along with the strong foundation of G.SKILL overclocking memory development technology, highly screened components, and custom 10-layer PCB, the Trident Z RGB series is the ideal DDR4 solution for building an extremely stylish performance PCs.

Features

- Revolutionary RGB LED lighting effect designed for show off your system
- Fluid rainbow wave default lighting effect
- Completely uncovered, full-length light bar
- Highly screened ICs and custom 10-layer PCB for uncompromised overclocking performance
- Luxurious hair-line finish aluminum heat-spreaders with aggressive fin design for highly efficient heat dissipation
- Intel XMP 2.0 profile support for easy and simple overclocking

Trident Z RGB Series

Extreme Performance DDR4 Memory

Technical Specification

Memory Type	DDR4	Tested Speed	3866MHz (PC4-30900)
Registered/Unbuffer	Unbuffered	Tested Latency	18-18-18-38
Module Type	UDIMM	Tested Voltage	1.35V
Error Checking	Non-ECC	SPD Speed	2133MHz (PC4-17000)
Capacity	32GB(16GBx2)	SPD Latency	15-15-15-3X
Multi-Channel Kit	Dual Channel	SPD Voltage	1.2V
Pin Count	288	XMP Support	Intel XMP 2.0
Fan Included	No	Profile 1	3866-18-18-18-38-1.35V
Warranty	Limited Lifetime	Profile 2	-

Compatibility

Chipset*	Intel Z270 Platform
CPU*	Kaby Lake (LGA 1151)

Shipping

Module Height	44mm / 1.73in	Product Dimension	6.3 x 5.4 x 0.59in
Module Weight	69g	Product Weight	186g / 0.41lbs
Country of Origin	Taiwan
